If you touch, tap twice or tighten the base of your airpods (depending on the model), you can play or pause a music, skip to the next music or activate SIRI, depending on how you program the AirPods on your phone. Bluetooth SEÇÃO. You will have many legal options to explore the airpods settings. For laptops and non-mação computers, the steps should be similar. For Android phones, turn on your phone's Bluetooth and go to settings, connected devices, and then Bluetooth. Supported by Premium Apple Technology, these durable headphones à €
